

Novartis Mission & Vision

Our mission is to discover new ways to improve and extend people's lives.

At Novartis, our mission is to discover new ways to improve and extend people's lives.

We use science-based innovation to address some of society's most challenging healthcare issues. We discover and develop breakthrough treatments and find new ways to deliver them to as many people as possible.

We strive to change the practice of medicine. We aspire to approach things differently—to make discoveries that take medicine in new directions. We look to tomorrow to inspire us today. Never satisfied with the status quo, we imagine what's next.

We are passionate about what we do and the impact we have on patients and societies.

We are Novartis, and we are reimagining medicine.

Our vision is to be a trusted leader in changing the practice of medicine.

Novartis Patient Declaration

The Novartis Declaration for Patients spells out our commitments in five areas, from safety to clinical trials.
